

## What makes this site different from other job search sites?

Jobs4Adventists has been created specifically for Adventists. Our goal is to connect Adventist institutions with people who are not only qualified, but also understand the message of God's end-time movement.

You will also notice that one thing that sets this site apart is the affordable pricing. We strive to keep our packages affordable to allow as many people as possible to join. This makes a more robust site loaded with options.
